QUARTERLY ESTIMATED TAX PAYMENTS
You are required to make estimated quarterly income tax payments for the current tax year if you expect to owe $200.00 or more when you file your next Dayton tax return. If 90% of your final tax is not paid on time, in four (4) scheduled quarterly estimated payments (April, June, September, and December), you will be assessed an additional underpayment penalty when you file your next return.

IMPORTANT REMINDERS: Failure to file a D1 estimated tax return and pay an amount equal to at least 90% of the tax due on your annual return in scheduled quarterly installments can result in an additional underpayment penalty being assessed at the time your annual return is filed. A $25.00 non-filing penalty will also be applied. Income tax payments are due quarterly, not when the return is filed. More tax information is available at www.daytonohio.gov, including tax forms and important changes in the revised City of Dayton income tax ordinance.

PENALTIES: Dayton Income Tax Ordinance: 36.109(C)(3): Where the taxpayer has failed to file a city income tax return by the due date or the date resulting from extension, twenty-five dollars ($25) per month or fraction thereof that the Dayton city income tax is not filed, with the penalty not to exceed one hundred fifty dollars ($150). The penalty in this section 36.109(C) shall be imposed regardless of cause.

Dayton Income Tax Ordinance: 36.111: Any person shall be guilty of a separate misdemeanor of the first degree if he shall: Fail, neglect or refuse to make any return or declaration required by this chapter; or Knowingly make an incomplete, false or fraudulent return; or Willfully fail, neglect or refuse to pay the tax, penalties or interest imposed by this chapter; or Attempt to do anything whatever to avoid the payment of the whole or any part of the tax, penalties or interest imposed by this chapter.
